

Milexia announces the acquisition of UR Group

Saint Aubin, September 30th, 2025 – Milexia is pleased to announce their agreement to acquire UR Group through the acquisition of UR Italia S.R.L. and their European subsidiaries. UR Group is a European provider of advanced connectivity systems, subsystems and end-to-end solutions for the Defence, Transportation and Industrial Automation markets.

This strategic acquisition enables Milexia to enhance its presence and offerings with a growing European team and expertise, able to work with large international companies across Europe and UK.

UR Group has been serving the electronics industry since 1996, consistently providing customers with exceptional, innovative and specialized services. Headquartered in Milan, UR Group has established a strong reputation for its dedication to customer support and supply chain services.

Giovanbattista Laghezza, CEO of UR Group, stated, *"I am delighted to announce that, after thorough consideration, our company has been acquired by Milexia. This decision is grounded in our shared values and the continuation of the UR Group's vision. We are confident that our team will flourish under the new leadership, and we eagerly anticipate supporting the next phase of growth while remaining true to the foundational principles that have defined our success."*

Giuseppe Bergamaschi, Sales Director of Milexia Italy, remarked, *"This acquisition is aligned with our local growth strategy and offers a game-changer for our customers and partners. By combining our market-leading solutions with UR Group's innovative approach, we're not just expanding our portfolio—we're redefining what's possible in our historical and growth markets. Our sales teams are already aligned to deliver even greater value, faster and with the agility our clients demand. Together, we're setting a new standard for excellence and growth for the benefit of Milexia Italy and the other subsidiaries of Milexia."*

Xavier Gaillard, CEO of Milexia Group, commented, *"We are enthusiastic about the possibility of integrating the UR Group business and its skilled employees into the Milexia family. This acquisition marks a significant milestone in our strategic plan to acquire value-added solutions providers and to enhance our expertise in cutting-edge technologies such as Satcom, Radar, Inertial Sensing, and Navigation. We firmly believe that, under Milexia's unique operating model, these exceptional businesses will thrive and achieve even greater success across Europe."*

About Milexia:

Founded in 1971, Milexia Group is one of the world's leading European suppliers of high-quality electronic components, systems and scientific instruments technology. It has offices and warehouses in France, Italy, Spain, the United Kingdom, Germany and the Nordics. The Group has technical centers in France and the United Kingdom, which offer customized, installation, training and maintenance solutions for Defence, Space, Transportation, Satcom, Scientific Instrumentation, and others civil industries.

About UR Group:

Established in 1996, UR Group is an international provider of advanced connectivity solutions in IP networking, wireless, satellite and fibre-optic based applications. We specialize in providing specialized, focused solutions in our key markets of ITS, Defence, Industrial Automation and Energy. We partner world-class manufacturers to bring ruggedized, reliable connectivity solutions with leading-edge technology which provides measurable return on investment in our customer applications, every time. Yet we understand technology alone is not enough. Through our Technology Enablement model we combine this solutions portfolio with customer-driven integrated services and internationally located and technically enabled sales teams who are able to provide expert technology guidance. These specialist services are designed to assist our customers in the successful adoption of the latest connectivity platforms, whatever the application demands. This solutions-based package brings a combined perspective which delivers real-life value to our customer programs. Our value proposition is unique in today's marketplace of product groups. It participates in consultative engineering and provides know-how and support services.
